Private Practice Newsletter

Pays for Itself with One Short-term Referral!

Yes! It is our FrontLine Newsletter turned into a powerful marketing tool!

Imagine life without worrying about filling your psychotherapy practice with clients or patients. You could focus on what you do best rather than spend time worrying about getting enough referrals.

Welcome to Private Practice Newsletter —a powerful marketing tool that creates “top of mind” awareness in the community, and helps increase referrals to keep your phone ringing with new clients.

Private Practice Newsletter helps you easily practice Rule #1 in a tough economy: Don't stop marketing. We've created this new product and guarantee it will help you do just that—build your practice.

How It Works

Private Practice Newsletter arrives as a PDF, MS Word, or MS Publisher document ready for distribution each month. Print it, email it, edit or amend it. Allow doctors and wellness professionals to place it in their waiting rooms and mail it to former clients or other potential referral sources so they never forget about you.

Easy Marketing at Your Finger Tips

Based upon our 20 years experience in health marketing and seeing what works, we know this attractive and powerful communication tool with actionable and useful articles will build “top-of-mind” awareness for your therapy or psychiatric practice—guaranteed or your money back.
